

Urgent Public Notice

NOTICE TO ALL INTERNET USERS

Dear Esteemed Customer,

Telecom Namibia would like to inform its Broadband Internet customers that the out-of-bundle bandwidth usage on all Postpaid Mobile Internet Packages (3G-EVDO) will be charged as from 1 August 2009. At the same, we also want to share the good news about our new completely unlimited and uncapped Broadband Internet Plans that you as a customer can select to suit your monthly budget and enjoy your time on the Internet.

Reduction in Out-Of-Bundle Postpaid Rate

Good news is that Telecom Namibia has decided to reduce its out-of-bundle rate for its Postpaid 3G-EVDO broadband packages as well as usage charges for Prepaid Packages to 50 cents per Megabyte as from 1 August 2009. It means Postpaid customers will pay 50 cents for every additional Megabyte downloaded over and above the data allotted for their packages, while Prepaid customers will enjoy a per Megabyte rate of only 50 cents. This makes Telecom Namibia's out-of-bundle rate the lowest in the Namibian market.

Charging for Out-Of-Bundle Usage on Mobile Broadband Packages

Yes, it is official! Telecom Namibia will be charging for out-of-bundle usage on all postpaid Mobile Broadband Services as from 1 August 2009. The company has not been doing so in spite of the fact that these 3G-EVDO services were priced and introduced each with a specific maximum usage limit.

In order to keep track of your usage and be aware where

you stand in relation to your usage quota, please call 1100 toll free to be provided with the required information.

No Capping On All Fixed Broadband Services

The good news is that all of Telecom Namibia's Fixed Broadband subscribers can access all the amazing information available on the world-wide web, send and receive email both locally and worldwide, do business on-line, and more with no limits on usage at a flat rate. This incredible offer is to be enjoyed by all ADSL and WiMAX customers.

New Unlimited Mobile Broadband Internet Package

But do you need more Internet time? Telecom Namibia now offers you unlimited access to its fastest mobile Internet service – also known as 3G-EVDO service, anytime where there is network coverage, for a very attractive price of N\$ 999 per month, subject to a 24 months contract.

With our new Unlimited Mobile Broadband Plan, customers enjoy unlimited access to the Internet, with no limits on the amount of data volumes at a fixed monthly fee. This is so far the cheapest and only unlimited fast mobile Internet service in Namibia. All you need to do is drop into any Teleshop and sign-up immediately to benefit from this deal.

For more information, please contact your nearest Teleshop or the Customer Contact Centre at 1100 toll free.
